2019**

**RYDGES SOUTH BANK
BRISBANE**

KEYNOTE SPEAKERS

Bradley Fullerton, M.D
Physical Medicine &
Rehabilitation.
Texas, USA

Dr Stanley Lam
Musculoskeletal Medicine,
Hong Kong

The Organising Committee look forward to welcoming delegates to the **2019 Conference** in beautiful Brisbane.

The conference will focus on emerging treatments in musculoskeletal medicine through workshops, updates in clinical practice, relevant expert presentations and skills sessions.

The Conference theme 'Pain....the big picture. Merging perspectives for better outcomes' lends itself to a wide range of treatment approaches including regenerative injections, medications (including medical cannabis), acupuncture, laser therapy, manual therapy, exercise, spinal cord stimulators and inversion machines.

Our two distinguished international Keynote speakers will introduce us to the world of biotensegrity & fascia & ultrasound guided peripheral nerve hydrodissection techniques.
