

# Australian Association of Musculoskeletal Medicine

## CERTIFICATE IN MUSCULOSKELETAL MEDICINE

### MODULE 1

## ASSESSMENT AND MANAGEMENT OF LOW BACK PAIN

*A learning module for doctors wanting to boost their skills and confidence in managing low back pain.*

#### Learn how to:

- Sharpen your diagnostic skills with more focused history taking
- Refine your physical examination skills and understand your findings
- Target and interpret lumbar spinal investigations
- Make a specific diagnosis leading to effective treatment
- Perform basic manual therapy and trigger point injections in your office
- Prescribe appropriate exercises and medications

This module is the first of four modules leading to the award of the '**Certificate in Musculoskeletal Medicine**'. The course has been run by the AAMM in Brisbane for 2 years and has been highly rated by participants.

Each module comprises a pre-reading component of ~ 6 hours in preparation for a 1 day interactive workshop with small group tutorials, hands on physical examination & treatment techniques and case discussions.

The 4 modules are (i) low back pain (ii) neck and upper back pain (iii) upper limb pain and (iv) lower limb pain.

Modules can be taken independently. All 4 modules must be successfully completed to receive the certificate.
